HERE'S HOW TO PLAY

Plucky penguin explorer

The penguin explorer must make the run from one ice station to another, avoiding obstacles, before the timer counts down to zero. If the timer does reach zero before he arrives at a station, the game is over. When the penguin has just ten seconds of time left for his run, a warning alarm sounds!

The explorer's first goal is reaching the Australian Ice Station. Press the Control Stick up to make him move fast. Once he reaches his "cruising speed," he stays at that speed until he skitters around an ice puddle or crevasse, collides with a seal or falls into an ice crevasse. Press the Control Stick down to slow the penguin down.
On thin ice

Slide and glide to the “Skaters’ Waltz” as the penguin speeds toward a station. Move the Control Stick left or right to make him waddle around ice puddles, ice crevasses or seals. Watch out—don’t wander too close to the edges of the obstacles or the penguin skitters and loses valuable time!

Ice dancing

Sometimes it’s easier for the penguin to jump over obstacles rather than slide around them. Press either Side Button or the Yellow or Orange Action Button to make the penguin jump over an obstacle. Earn 30 points for a successful jump.

Slip slidin’ away

If the penguin falls into an ice crevasse, he must scamper out again. Press either Side Button or the Yellow or Orange Action Button to make the penguin jump out of the crevasse and back onto the ice. Press the Control Stick up to get him cruising again.

Curiouser and curiouser

Playful seals are curious about the penguin’s progress over the ice fields. As the penguin moves toward an ice station, one of the seals pops up frequently through holes in the ice to see what’s going on! Press the Control Stick left or right to glide around this mischievous fellow. Press either Side Button or the Yellow or Orange Action Button to make a daring jump over this curious critter. Try to make the jump over the seal’s shoulders since a head-on jump usually guarantees a collision. Earn 30 points for a successful jump.

Capture the flag

Previous polar explorers have scattered bright green flags across the polar ice fields. Dart the penguin through a flag and earn 500 points!
Flying fish

Exploring burns up lots of energy and the penguin gets very hungry! As he races across the ice, fish leap up through ice holes toward him. Earn 300 points for each fish the penguin catches.

Ice station penguin

When the penguin reaches an ice station, he hoists the station’s flag and salutes. Congratulate yourself—you’re definitely hero material! Warm up and keep on truckin’! You’ve got nine more ice stations to reach on your ANTARCTIC ADVENTURE™!

Starting over

When you end one ANTARCTIC ADVENTURE™ game, press any Keypad Button to begin another!

Reset

The Reset Button on the console or the ADAM™ stops the game and returns you to the Title screen. It can be used at any time to start a new game, and can also be used in case of game malfunction.

SCORING

When the penguin completes a run into an ice station before the timer counts down to zero, you earn a bonus of 100 points for each second left on the timer. You also earn points when the penguin jumps over an obstacle, captures a flag or catches a fish.

You start your adventure with one penguin explorer; he is never eliminated from play. However, the penguin is slowed down by falls into ice cravasses, skitters around ice puddles or crevasses and collisions with seals. Each delay loses valuable exploration time. If time runs out before the penguin reaches an ice station, the game is over.
